Art Unit: 1754

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP '744 taken with JP '153.

The prior rejection is incorporated herein by reference.

Applicant's arguments filed 1/22/07 have been fully considered but they are not persuasive.

The argument that heat exchange is not taught is not persuasive; the examiner admits that the rejection is made under '103. It is an obvious expedient to exchange heat between endothermic and exothermic processes. If regulations do not permit off-gassing of CO<sub>2</sub>, then it is an obvious expedient to handle the waste in a legal manner; food grade CO<sub>2</sub> may be sold for beverages instead of being put into the air or ground, for example.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
